

REMARKS

The examiner objects to the drawings "because reference characters "90", "92" and "102" have been both used to designate bearings and drive member". Applicant has reviewed the specification and has found the following:

A. Drive member 92: page 7, lines 31 and 35, page 8, line 8, page 11, line 4;

B. Bearings 102, page 7, line 36;

C. Top portion 90, page 7, line 31.

These numbers only index a single item and the item is clearly indexed in the corrected drawings submitted on January 20, 2004.

Applicant believes that the Examiner's objection to the drawings and to claim 3 have been overcome. A Notice of Appeal is being filed separately, which will handle the remaining issues in this application.

Respectfully submitted,

By

  
Spencer T. Smith  
Attorney for Applicants
